ECOINTENTION III ONLINE

Work at a higher energy level and learn to coach using the principles of energetic guardianship and to balance a guardian's organization or nature reserve.

More confidence and insight

This year you work on someone else's project. Your guardian achieves his/her goals while you do the balancing, gain greater understanding, and learn to communicate the process. Everything will run better. You gain more confidence in yourself, your intuition, and ECOintention. Energy works!

Learn to coach the guardian

During project visits you do energetic readings at control points and coach the guardian according to the principles of energetic guardianship. Does he/she have an awareness of the whole, a sense of what is going on, and good affirmations? Guest teachers introduce interview and coaching techniques.

Energy with a higher vibration

Your personal development is central because you are working at a higher energy level this year. This involves collaboration with spiritual guides and learning how to control your energy with mudras (finger positions). Other topics include numerology and the healing energy of crop circles.

Course management and feedback

Your instructors are Hans Andeweg and guest teachers. Just like in Year 2, you will be coached in balancing by Rijk Bols and an ECOintention Practitioner. Every twelve days you test the energy of your project.

Balance someone else's project

Your project can be any organization or nature reserve as long as it has a map. You have two projects—one you do alone and another you balance with a fellow student. Before beginning, instructors make an energy scan with you to determine whether your projects can be balanced. Are the goals achievable? In how much time?

Collaborate with a fellow student

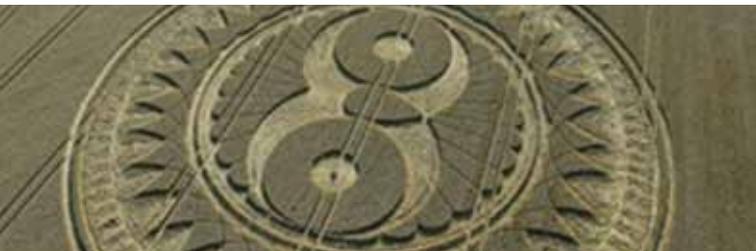

Use one another's talents and gain confidence by testing and balancing together. "One plus one equals three" applies here. Test remotely with Zoom or Skype, taking turns in balancing.

Coaching and management fees

Your coaching is more intensive because you work at a higher energy level in projects of others. To keep course costs down and involve the guardian in your balancing, guardians asked to pay €595 (ex. VAT) for the year. This is €49,90 (ex. VAT) per month.

Receive the ECOintention Advanced II diploma

The course concludes with submission of a report and a short Zoom presentation to your group, the guardians, and other ECOintention students. After passing a theory and dowsing test, you are awarded an ECOintention Advanced II diploma.

What?

The course runs from January to November 2020 and consists of 12 Zoom modules and a four-day Intensive where you meet your coach and learn essential balancing skills. The design of the modules is comparable to ECOintention II modules.

Where and when?

- Project energy scans with Zoom are done January 28-30, 2020. You attend one of the modules in which we make an energy scan of your third-year projects with you and other students of your group.
- Group modules with Zoom are 4:00-7:30 pm CET on the following Tuesdays: Jan 21, Feb 18, March 10, April 14, June 9, June 30, Sept 8, Oct 6, and Nov 10, 2020.
- The four-day ECOintention III Intensive in Mennorode, Elspeet (NL) is from May 15-18, 2020.
- Zoom project presentations are shared on Tuesday, December 8 and Wednesday, December 9, 2020.

Costs

ECOintention III: €2,499, which includes course material, lunch during the four-day Intensive, and €90 a month for 12 months for your personal project coaching.

Participation

The minimum number of participants is 12. You are eligible to participate if you have taken the course ECOintention II and completed three blocks of intuitive development training or something similar (this can be completed in 2020).

Note: In 2020 Center for ECOintention offers a Zoom course with Linda Keen to enable international students to learn intuitive development.

This course is the third year of the four-year vocational training to become an ECOintention Practitioner. The training is recognized by the Dutch government.

EXPERIENCES OF ECOINTENTION III STUDENTS

“I always joined the course with pleasure and always was very satisfied at the end of the day.”

“It was particularly interesting to balance and coach a project of someone else. An exercise in letting go.”

“It is very instructive to balance a project together. It also gave me more confidence.”

“The advantage of balancing together is that you can use the talents of the other person.”

“I experienced this course as an opening to a certain lifestyle and vision in which I got to know myself better in dealing with energies and feelings towards others.”

“For me, ECOintention is making visible what is invisible to many. ECOintention teaches you a greater awareness of what is.”

“It has been a fantastic and special year again! I gained a lot of experience and learned a lot.”

“ECOintention III was another great experience!”
